ENVIRO-RINSE

ENVIRO-RINSE

Blue River Coatings ENVIRO-RINSE is a rinse aid designed to accelerate and reduce the time required for complete curing of Enviro-Kote or Enviro-Shield. ENVIRO-RINSE provides customers with a solution for quick turn around required for on-time deliveries or mass production schedules.

CHARACTERISTICS

- Cures Enviro-Kote or Enviro-Shield application quickly
- Non-photochemically reactive
- Application by spraying, dipping, wiping, or brushing
- Little to no irritating odor
- Water solvent is used for clean-up
- Non-hazardous
- Shelf life of one year
- No special safety equipment required

USES

- On any substrate coated with Enviro-Kote or Enviro-Shield

AIR QUALITY DATA

- Free of lead and cromates
- VOC (Volatile Organic Compounds) 0.0 lb/gal; 0.0 gm/ltr when catalyzed

PHYSICAL DATA

- Liquid, clear
- Specific Gravity: 1.0
- Evaporation Rate: Slower than either
- VOC: 0.0 lb/gal; 0 gm/ltr
- % Solid by weight: <1%
- % Solid by volume: <1%
- Weight per gallon: 8.8 lbs.
- Flash Point: 212°F CC

APPLICATION

Enviro-Rinse is a ready to use rinse aid and can only be used in conjunction with Enviro-Kote and Enviro-Shield. Application is by spraying, dipping, or wiping. Any substrate that is coated with Enviro-Kote or Enviro-Shield may demonstrate a tacky/stick feeling when touched during curing for a period of time.

CLEAN-UP

Use lacquer thinner or MEK for cleanup. Insure that proper protective clothing and equipment is used during application and cleanup.

BLUE RIVER COATINGS

DEDICATED TO THE ENVIRONMENT

Blue river Coatings ENVIRO-RINSE is considered non-hazardous by EPA definitions and does not contain lead or chromates. The solid and semi-solid sludge produced in spraying and clean up can be dried and sent to a "Class B" landfill. Please follow local and state regulations in the proper use and disposal of this product.
