

INSULATED CONTAINER, MODEL GB-35 U

OPERATION & MAINTENANCE SHEET

In Upright Position (GB35 U)

- The insulated container is adapted to hold food preparations in temperature into Gastronorme containers or on bakery plates with 2 special racks (optional).
- The container is adapted to hold Euronorm plastic cages (400x600mm) for the transport of fresh or frozen food for an optimum temperature holding.
- Take care to fill the container with either frozen, fresh or hot food but do not mix products at different temperatures.
- The unit is fully reversible. In standard execution feet or wheels (optional) are positionned to have the door closing latch on the left; however feet or wheels can be removed and placed to the other side of the container.
- For an optimum temperature holding, it is recommended to fill the container until full.

In a Chest Configuration (GB35 C)

- The insulated container is adapted to transport frozen or fresh food stacked in the container, ice, cooking utensils, spares, ... requiring either a temperature insulation or a protection during storage and transport.
- In its Sanitation configuration, the standard unit is equipped with 4 feet and a drainage system.
- For an optimum temperature holding, it is recommended to fill the container until full.

Care & Cleaning

- Clean the insulated container and accessories before the first and after each use by using a neutral detergent. Rinse thoroughly.
- Remove gasket for cleaning regularly. Clean gasket with a neutral detergent and a thin barrel brush.
- Allow unit and components to air dry after cleaning and reassemble the gasket.
- Do not stack more than 2 filled containers one above the other.
